IIWCC OVERVIEW

The International Interprofessional Wound Care Course (IIWCC) is designed for wound care specialists with some wound care education and experience: physicians, nurses, and other health professionals in the wound care field and related industry.

The IIWCC is a 9 to 12 month course, offered in partnership with the University of Toronto. The objective is to provide a comprehensive educational experience for wound care specialists and to translate new knowledge into practice.

- **Two mandatory Residential Weekends (4 days each)**
- **Fourteen self-study modules (9 required to complete: 5 faculty chosen and 4 student chosen)**
- **A selective related to course content translated to class members with written report that is translated to each student's day-to-day activities.**

Participants will:

- Assess and critically review wound care literature in key subject areas (Residential Weekends and Modules)
- Integrate wound care principles into module answers and small group patient sessions (Residential Weekends)
- Demonstrate the application of best practices by developing a Selective related to the learner's everyday activities/presented to the class

QUALIFICATIONS

Participants must have a health professional degree **OR** provide proof of a minimum of five years of relevant skin and wound care experience. A letter from an employer must be attached at time of application for those individuals without a degree. Participants not meeting these requirements are encouraged to explore:

1) **Wounds Canada** (www.woundscanada.ca) provides education to support the learning needs of all health-care professionals in the areas of skin health and wound management.

2) **Canadian Association for Enterostomal Therapy** (caet.ca) Academy Enterostomal Therapy Education Program, an online interactive continuing education program for Baccalaureate Registered Nurses to become leaders in the practice of the tri-specialty of Wound, Ostomy and Continence management
