

MODULES: Faculty Chosen (F) & Student Chosen (S)

- Education and Health Care Systems- (F)
- Health Care Delivery (S)
- Research Design and Methodology (S)
- Wound Bed Preparation (F)
- Inflammation and Infection (S)
- Leg Ulcers, Venous, Arterial, and Others (F)
- Diabetic Foot Ulcers (F)
- Pressure Injuries (F)
- Maintenance/Non-Healable Wounds (S)
- Post-surgical Wounds (S)
- Burns/Trauma (S)
- Skin and Peri-stomal /Peri-wound (S)
- Lymphedema (S)
- Acute Skin and Soft tissue Infections (S)

WHY ATTEND THE IIWCC

- Certificate of completion from UofT
- Readings pre-selected by faculty
- Comprehensive therapeutic strategies
- Training to be an educator
- Small group interprofessional collaboration
- Hands-on patient care demonstrations
- Connect with international key opinion leaders
- Networking with colleagues
- Can be used as a credit towards the MScCH
- **Can be used as credits for the Nurses Specialized in Wound, Ostomy and Continence Canada education programs**
- Master's Program at U of T Graduate Studies
- Information on new products and services

2022-2023 IIWCC-CAN PRICE LIST

Please note that prices are in Canadian Dollars, and are subject to applicable taxes. Please refer to www.woundpedia.com for cancellation fees.

IIWCC OVERVIEW

The International Interprofessional Wound Care Course (IIWCC) is designed for wound care specialists with some wound care education and experience: physicians, nurses, and other allied health professionals in the wound care field and related industry.

The IIWCC is a 9-to-12-month course, offered in partnership with the University of Toronto. The objective is to provide a comprehensive educational experience for wound care specialists and to translate new knowledge into practice.

The option to obtain a University of Toronto/Queen's University: IIWCC Advanced Certificate for Wound Care is available for Ontario registrants in Sept 2022 and for the rest of Canada & Internationally, in Sept 2023 with the IIWCC portion acceptable within a 3-year completion timeframe.

- **Two mandatory Educational Sessions (3 days each)**
- **Fourteen self-study modules (9 required to complete: 5 faculty chosen and 4 student chosen)**
- **A selective related to the student's day-to-day activities is presented to the class and faculty along with a submitted written report - demonstrates translation of evidence to practice setting**
- **Skills Workshops including 3 virtual platform sessions with faculty between educational sessions**
- **Virtual Skills sessions 10 hours spread between the 2 educational sessions for skills acquisition**

Participants will:

- Assess and critically review wound care literature in key subject areas (Educational sessions and Modules)
- Integrate wound care principles into module answers and patient management sessions (practice simulation)
- Demonstrate the application of best practices by developing a Selective related to the learner's everyday activities/presented to the class
- Perform new skills requiring demonstration of competency

QUALIFICATIONS

Participants must have a health professional degree **OR** provide proof of a minimum of five years of relevant skin and wound care experience. A letter from an employer must be attached at time of application for those individuals without a degree. Participants not meeting these requirements are encouraged to explore:

Project ECHO Ontario Skin and Wound

(<https://wound.echoontario.ca/>) The Project ECHO model centres around weekly expert-led virtual clinics that bring together an interprofessional cohort of primary care doctors, nurses, and other clinicians. The sessions, resources, and community of practice build capacity to provide specialized care. The aim is to move knowledge, not patients, and offload costs in Ontario's healthcare sector. The weekly 2-hour ECHO sessions are CME accredited and provided at no cost. They are hosted through Zoom and are structured by having a short didactic lecture with case-based learning. Spokes present their own patient cases for team discussion with comprehensive management plans developed.
